

MATTYS CHRETIEN

Game Developer

À PROPOS

Passionate about video games since childhood, I discovered a strong interest in programming during high school.
For the past three years, I have been pursuing this passion by studying at a specialized school, with a focus on video game development.

EXPÉRIENCES PROFESSIONNELLES

Gameplay Developer Apprentice | January 26, 2026 – September 26, 2026 | Oxxymore Interactive

Development and integration of game mechanics in Unity (C#), including gameplay systems, interaction systems, and performance optimization.
Design and continuous improvement of player experience through level design, UI/UX, and iterative collaboration with the team.

Web Developer Intern | May 15, 2025 – August 15, 2025 | SATEM

Designed and developed the company's website, from wireframing and mockups to full page integration. Optimized the user interface and user experience to deliver clear, modern navigation tailored to the company's needs.

Intern | November 2018 | S.A.S Chretien

One-week internship within a general construction company, gaining insight into project organization and on-site operations.
Introduced to and participated in various trades, including electrical systems, electronics, plumbing, construction, and HVAC.
